

BMW Corporate News

New 13% BIK sub-120g/km BMW models.

Dear Jonathan

I am delighted to announce further awards confirming our strength in the corporate market. BMW was honoured as Best Car Manufacturer at the [Which? Awards 2009](#), [Fleet World](#) recognised the BMW 3 Series as the Best Fleet Car 2009 and there was more acclaim for BMW EfficientDynamics technologies at the [What Car? Green Car Awards 2009](#).

BMW now offers a choice of models that emit less than 120g/km CO₂ and at 13% BIK, qualify for the lowest rate of company car tax for a diesel vehicle and lower NI contributions. The new [BMW 316d ES Saloon](#) is unveiled as the most efficient 3 Series ever, with emissions of only 118g/km and 62.8 combined mpg, it delivers outstanding value. The new [BMW 118d Coupé](#) is the only sports coupé sub-120g/km and 13% BIK.

We've also introduced value enhancing additions to the BMW 3 Series Saloon and Touring ranges. The new [Business Editions](#) are available on all 4-cylinder derivatives. For just £1,000 more than the standard models, upgrade to the BMW 3 Series Business Editions and benefit from additional specification worth up to £3,545. The SE and M Sport Business Editions include leather upholstery, BMW Business Navigation, Bluetooth and the benefits of [BMW ConnectedDrive](#).

The BMW 1 Series Coupé and Convertible ranges now include a new [Sport model](#). Drivers will benefit from the added value of more equipment: including 17" alloy wheels and Sport seats.

To find out more, telephone the BMW Corporate Sales team on 0800 777 113, email corporatesales@bmw.co.uk, or contact your preferred BMW Dealership.

Yours sincerely

Stephen Chater
Corporate Operations Manager
