The Ultimate
 Driving Machine

Dear John,

I am delighted to announce that the eagerly anticipated new BMW 3 Series Convertible is now available in the UK.

Offering a combination of exceptional performance and the thrill of open air driving, it is also surprisingly practical. By creating a unique folding mechanism for the electronically-operated retractable hard top, BMW has succeeded in achieving 210 litres of boot space with the top down. With the roof up, the 2+2 seating arrangement allows four to travel in comfort, in comfort, and with the roof down the rear seats fold back for even more load carrying. The retractable hard top has the added benefit of increased security.

The range offers a choice of two exceptional petrol engines – the 325i and 335i – both featuring the new High-Precision Direct Injection system with Bi-VANOS variable valve technology. This enables the engines to deliver more power than ever before, while significantly reducing fuel consumption and emissions. Also available are the sporty 320i, the smooth and refined 6-cylinder 330i and the powerful and economical 330d, offering exceptional levels of torque and fuel economy.
